Supplier management (contracts, budgets, deliveries, integration, support)
Managing the Digital Channels & Payments Team (BA, DEV, QA/QC functions)
Digital Channels (NextGen Online & Mobile Banking) - PSD2, Open Banking, XS2A, Payments

MEDITERRANEAN BANK

07.2016 – 10.2017

Head of Online Platforms and Electronic Channels

Implemented the Agile methodology and heading Agile Product Development, Continuous Integration Product Delivery, Software Maintenance, Applications Support, Quality Assurance and Software Supplier Management for all Online Platforms (eBanking, Investment Banking, Wealth Management, Payments) and Electronic Channels of the MeDirect Group (retail and corporate banking):

Mediterranean Bank – Malta, Mediterranean Corporate Bank - Malta

Medirect Bank – Belgium, Charts Investment Management – Malta

WOLTERS KLUWER FINANCIAL SERVICES

03.2014 – 10.2015

Director

Main roles: Director - Wolters Kluwer Financial Services Romania

Product Development Delivery - EMEA region – 20+ countries - Team of 300+ employees

Appointed to manage a large PD Centre with focus on software financial services:

Financial Compliance - Banking Regulatory Reporting (Basel III - CRD IV/CRR - COREP, FINREP),

Insurance Regulatory Reporting (Solvency II), Financial Risk - Risk Management

SELECTED ACHIEVEMENTS:

- Successfully built a core middle management team and leading the company through extreme growth; effectively doubling the team size from 100+ to 250+ within one year. The global corporate growth was prioritized locally. This strategic decision was based on great results like higher productivity and higher quality at a very competitive cost.
- As part of the EMEA delivery (20+ country applications) role, I lead a global team that's spread across the whole EMEA region, making the entire team I am leading in the order of magnitude of 300+.
- Achieved third most profitable IT Company in the region for 2014, after not being in the top in 2013.
- Played a leading role on the large scale organizational transition to Agile, Lean Six Sigma and PMI from Waterfall/PRINCE2. The transition is complete and a real success. I lead by example, walking the talk as a Certified Scrum Master, Product Owner and Lean Six Sigma Champion.

INTERNET MARKETING ONLINE

02.2012 – 05.2013

Software Department Manager and Human Resource Manager

Appointed to manage a large software department with focus on technology, projects, corporate culture, hiring the best technical team, efficient communication, optimizing the development process, updating the technologies involved, people management, project and program management. Team of 100+ employees.

SELECTED ACHIEVEMENTS:

- Successfully led (people and technical management) the software department – 100+ software specialists, over 400 games, tens of high availability, large transactions web gaming portals, downloadable/mobile game versions. I recruited/supervised/appraised/motivated Project Managers, Mathematical Modellers, Graphical Designers, Software Developers, QA Engineers, Network & System Engineers, DB Admins, Technical Writers - using technologies like Java, C++, C#, PHP, Unity 3D, Action Script 3, SQL etc.

- Business Development and branding localizing. All that increased the awareness of the brand and the local development studio, resulting in a 300% increase in candidate interest and relevant job applications, plus boosting the morale of current employees.
- Reorganized the departments, updated the procedures, researched and implemented new technologies, platforms, frameworks, design patterns, QA regression testing scenarios and cases. That increased the efficiency (lowering necessary man-hours/time to market) of the development and testing processes to approx. 50%.

DEVGO - CONSITERA AG

09.2008 – 11.2011

Director of Software Research & Development

Appointed to start-up Devgo, an R&D Centre for Consitera AG as first employee. Also I was expected to manage the software start-up, recruit the team, design, develop the product and handle the business project/program/office management.

SELECTED ACHIEVEMENTS:

- Led the Project/Program Management (Agile): Requirements Analysis, Software Design, Software R&D, Software Testing, Software Delivery & Documentation from zero to the final product version 3.0 – VMware, Citrix & Microsoft – Workflow Product Family.
- Lead Software Architect of a complex, high transactional, scalable web platform built on (.NET, C#, ASP.net, WPF, WCF, WF, Silverlight, MSSQL). The software architecture was patented in Germany.

ASDION BERHAD

01.2006 – 07.2007

Head of Consulting Services

Appointed to start-up Asdion Consulting Services by creating custom project management procedures for international ERP and CRM implementations up to government level

SELECTED ACHIEVEMENTS:

- Achieved 50% improvement in project loading capacity for 2006 by standardizing and optimizing the self-developed custom implementation work-flow and procedures.
- Project Managed 20 ERP & CRM high level international implementations, including the \$2m China ERP implementation for the travel industry. The client was FEAS, the biggest travel agency in China, in collaboration with Travelsky, China's GDS provider.
